

SPECIALIZED INDUSTRIAL SAFETY SOLUTIONS FOR MANUFACTURING INDUSTRIES

Driving Safety Excellence Through Smart Safety Implementation

INTRODUCTION

HUNKY CONSULTING

We specialize in industrial safety training, safety implementation, digital safety systems, and workplace safety culture development for manufacturing industries. From hazard identification and risk assessment to AI-based forklift safety systems, we help organizations build safer, smarter, and more compliant workplaces.

Our mission is to create a proactive safety culture that improves operational efficiency, employee awareness, compliance, and incident prevention across industries.

INDUSTRIES WE SERVE

- Automotive Manufacturing
- Aerospace & Defense
- Food & Beverage Production
- Electronics & Consumer Goods
- Heavy Machinery & Equipment
- Warehousing & Logistics
- Chemical Industries
- Engineering & Process Industries

***Your Safety Starts with the Right Safety Culture.
Let Us Help You Build It.***

HOW WE WORK..

1. Consultation & Safety Assessment

We begin by understanding your industry processes, safety challenges, compliance requirements, and operational risks to provide customized safety solutions.

2. Hazard Identification & Risk Evaluation

We conduct detailed HIRA studies, safety inspections, and process evaluations to identify workplace hazards and recommend effective control measures.

3. Safety Training & Awareness

We provide practical industrial safety training programs, awareness sessions, and behavioral safety initiatives for employees and management.

4. Safety Implementation & Compliance Support

We assist industries in implementing SOPs, safety systems, ISO standards, signage, emergency preparedness, and shop floor safety practices.

5. Digital Safety & Continuous Improvement

We support organizations with digital safety kiosks, AI-based safety systems, daily safety engagement activities, and continuous safety improvement programs.

WHY HUNKY CONSULTING IS YOUR IDEAL SAFETY PARTNER

1. Practical Safety Solutions

We focus on real-time implementation-oriented safety practices suitable for industrial environments.

2. Strong Industry Expertise

Our team understands manufacturing industry safety challenges and provides targeted safety solutions.

3. Digital & AI-Based Safety Systems

We integrate digital learning, AI monitoring, and interactive safety awareness systems.

4. Customized Safety Programs

Every safety solution is designed based on your process, people, and operational requirements.

5. Compliance & Risk Reduction

We help organizations improve compliance, reduce incidents, and strengthen workplace safety culture.

OUR INDUSTRIAL SAFETY SERVICES

HIRA (Hazard Identification and Risk Assessment)

- ° Hazard identification
- Risk assessment and control measures
- Workplace safety evaluation

Industrial Safety Training

- Employee safety awareness
- Safety compliance training
- Practical safety education

BBS (Behavior Based Safety)

- Safe behavior development
- Unsafe act reduction
- Safety culture improvement

Work Permit Training

- Height Work Permit
- Confined Space Entry
- Electrical Work Permit
- Hot Work Permit

Machine Guarding

- Machine safety assessment
- Guarding implementation support
- Operator safety awareness

Electrical Safety

- Electrical hazard awareness
- Lockout/Tagout practices
- Safe maintenance procedures

Safety Data Sheet(SDS) & Chemical Safety

- Chemical handling awareness
- SDS training
- Hazard communication

Industrial Signage

- Safety sign implementation
- Visual communication systems
- Compliance signage support

Road Safety

- Industrial vehicle safety
- Traffic movement control
- Defensive driving awareness

Emergency Preparedness

- Emergency response planning
- Fire safety drills
- Evacuation procedures

ISO Training & Implementation

- ISO 45001 Training
- ISO 14001 Training
- ISO 50001 Awareness & Implementation

MHE Safety

- Material Handling Equipment safety
- Warehouse safety awareness
- Equipment operation training

Safety Culture Implementation

- Shop floor safety culture programs
- Employee engagement activities
- SOP implementation support

Industry Assessment & Implementation

- Safety audits
- Process safety evaluation
- Compliance assessment
- Corrective action implementation

DIGITAL SAFETY SOLUTIONS

Safety Kiosk – Digital Safety Platform

Features

- Daily safety quiz and games
- 3D incident awareness videos
- Industrial sign awareness
- Machine safety learning
- Interactive digital safety modules
- Employee engagement activities

SAFETY TRAINING ROOM & DOJO CENTER SETUP

We develop modern safety learning environments including:

- Practical safety training rooms
- Interactive dojo centers
- Demonstration-based learning systems
- Visual safety awareness modules

SOP & SAFETY AWARENESS SYSTEMS

We support industries with:

- Pictorial SOP development
- Do's and Don'ts boards
- Stop Call Wait practices
- Process safety awareness displays
- Visual work instructions

FORKLIFT SAFETY WITH AI METHOD

Advanced AI-based forklift safety solutions for modern industries.

Features

- Driver behavior monitoring
- Pedestrian alert systems
- Collision prevention support
- Safety analytics and reporting
- Smart industrial safety integration
